

QUEANBEYAN MODEL AIRCRAFT CLUB

President: Fred Lambert

Secretary: Paul Thompson

The Secretary,
[insert name & address]

Dear Sir,

REQUEST FOR ADVICE - FORMING NEW CLUB

A group of local aero modellers met on Monday, 5 September '94 and have resolved to form a club. A committee consisting of a President, Secretary and Treasurer was elected. Apart from flying activities, the club plans to meet on the first Monday (evening) of each month.

We are seeking information and guidance as to the practical requirements of forming an aero modelling club. We are also seeking affiliation with the appropriate bodies to facilitate the arrangement of insurance coverage etc.

I would appreciate any information you could provide on this matter, including samples of club constitutions, and other relevant documents if available. If you would like to discuss any of the above, I can be contacted on (06) 295 4684 during business hours, and (06) 297 4520 after hours.

Sincerely,

Paul Thompson, Secretary

September 1994

Welcome to the QMAC August 2003 newsletter. July also means membership renewal time, so attached to the newsletter is a renewal form, which you can print out, fill out and hand over some hard earned cash (that hurts) to a committee member.

THAT LONG September this year sees the 9th year of the Queanbeyan Model Aircraft Club. I've attached, as a memento, a copy of the original request letter.

MOISTURE Well a little rain has certainly greened up the field, stopped all that dust from ruining expensive engines. Be a pleasure (for a while anyhow) to mow the strip.

BALSA DUST Good to see members with some new models over the last few months, CAP232 OS91, Razzle 3D fun fly OS61, 'Somethin Extra STG51', Sonic 500 TT46, Giles 202 OS91, Modeltech Stik OS46, Modeltech Dragon Lady SC108 to name a few. Rumours have it we may soon see maiden flights of a 60 sized Cloud Dancer, couple of GWS electric warbird foamies, a Big Ed's twin with a couple of Saito's so keep up appearances at the field.

WEBSITE Those who haven't been to the club website for a while, check it out, Ian's been busy bashing away at the keyboard creating a masterpiece.

METHANOL After much sourcing we finally received delivery of a 205-litre drum of Methanol. By all reports it's providing the fire to our model

engines extremely well, and for the price...well who's complaining. More rumours are there is a large drum of Nitro in the pipeline so keep your ears open at the field.

MATS Desperately need some new mats for the pits, so if you can get your hands on any good carpet not being used, please.

CALENDAR Time to see what's on.

SUNDAY

31st August

AGM at the field

SUNDAY

26th October 2003
